Dressing Table Center Drawer Divider

The shallow center drawer in the dressing table from Woodsmith No. 238 is the perfect place to store small items. But unfortunately, those small items can easily get lost in such a large expanse. This clever divider system provides some much needed organization. The best part is that it can be customized for the things you need to store. Simply move the dividers from one notch to another to change the size (and number) of an individual opening. **W**
